

New Tech News

The New Tech News was established in 2012. It was first envisioned by Nishan Maharajan and was made possible by collaboration with James Franco and Yeliska Birkkinisk. It was made with the aim of providing it's viewers with the latest ongoing and changing information about the tech world, and so far it has been able to do so. It's main headquarters and servers are located in Jadibuti, Koteshwor. Some basic information of the people behind the website are given below. Thier personel details will not be reveiled for obvious reasons.

Name	Company Position Position
Nishan Maharjan	CEO
james franco	lead web designer
Yeliska Brikkinesk	Lead Back end Programmer
